Shadow Core: 23,294 CE, Andromeda Galaxy, Quadrant 45, top secret Shadow Core research facility.

BEEP BEEP BEEP! The sirens were blaring. Voices yelling and screaming, "The plutonium core is under a full meltdown!" "Get the escape pods ready!" The general yelled. No one seems to notice a young guard stumble out of his room. "Whats going on?" he said. But by then everyone is safely secured in an escape pod and already ejected into space. BOOM, there is a humongous explosion and a black hole forms and sucks everything in. Then as soon as it forms, it disappears.

Chapter 2 by rusty pokemon

"What the?" William groans as he stands up off the ground. He looks around just to see a arrow fly past his face. He turns and sees a giant army of what looked like trolls. "No way!" he exclaims, "Trolls don't exist." The next thing he knows, a bag is shoved over his face, and he is knocked out cold.
